

Vision

To become the most accessible and well known organisation for Old Blues and affiliated Old Blue groups, generating interest in and support for Christ's Hospital today, encouraging and enabling Old Blue to Old Blue and Old Blue to School interaction.

Purpose

To initiate and maintain "a community" of Old Blues, their families and former staff members interested in hearing about and supporting Christ's Hospital today and in the future.

Objectives

1. To provide and support appropriate events, forums, activities and communications where Old Blues and other CHOBA members can interact, both with the school and with each other, socially and professionally.
2. To inform Old Blues about Christ's Hospital today and how it may be different from when they were at school.
3. To reinforce the Leaver's Charge and to make all CHOBA members aware of the opportunities for providing practical assistance of every kind for the School and individuals connected with it.
4. To provide links for Old Blues and other members to become more formally involved with the school, personally or financially if they so wish.

Values

1. We are a friend-raising organisation and explicitly not a fund-raising organisation, although we will be happy to act as an access conduit to the fund raising activities of the school for Old Blues and other members.
2. Our focus is to benefit the school and Old Blues equally, whether with time or personal efforts.
3. We consult with all the Old Blue community as to what they would like us to provide and how they would like to interact with us.
4. We seek to be inclusive, involving all age groups and Old Blues from both Horsham and Hertford schools and will organise events by age cohort, specific interests or geography where appropriate to do so.
